# Testimonials

*Dina Preston has been one of the best programs we have done in Hungary! Thanks to you, we achieved several mission objectives, such as the Economic Statecraft Initiative and, of course, showcasing of American culture. It was such a pleasure to work with you and Don... We've got positive feedback from your listeners to American Corners' Directors and to our staff— please see below from one of the influential local arts managers.*

*Dina and her husband Don's lecture touched on many management details that are very useful for the organizers, managers, and artists alike, experienced or inexperienced. I have made a nice list of points that I took away from the Preston lecture that I intend to share with the artists/organizers here in Hungary. I can imagine that I may be writing the Preston's for further advice. But more effective than just e-learning, I hope very much that you would bring them back to Hungary! “*
